# Darco Heel Wedge Shoe

*Clinically proven to effectively enhance healing time of heel injuries due to the offload of pressure from this region of the foot.*

The Darco Wedge Offloader Shoe has been designed to offload the heel by transferring weight from the mid foot, it has a square toe design with a modified rocker bottom sole, therefore promoting faster healing after surgery, trauma or DFU.

## Features & Benefits

- Reduced heel pressure.
- Square toe design acts as bumper to protect toes.
- Modified rocker bottom encourages a smooth toe-off while maintaining a stable mid-foot base.
- Unique forefoot closure provides uniform security without the pressure points of buckles & strap.
- Ankle strap seats the foot firmly in the sole and eliminates heel friction.
- Cloth toe protector keeps toes warm and dressings clean and dry.
- Insole can be removed for improved accommodation and in conjunction with peg-assist system.

## Indications For Use

- Rear Foot trauma.
- Wounds and ulcerations on the heel area.
- Post-surgical healing for either soft tissue or bone structure of the heel.
- Diabetic foot management.
