

# BeneCast™ Gold

A premium standard POP, made from 100% cotton leno weave gauze and the highest quality gypsona, making it suitable for many different indications.

BeneCast Gold™ is the only Plaster of Paris to have been developed in the UK, with the feedback and trialling of clinicians as the key cornerstone of its development. BeneCast™ Gold Plaster of Paris BP bandages is a gypsum based material impregnated into woven bandages which can be used in the construction of external immobilisation appliances. BeneCast™ Gold is made from superior 100% cotton leno-weave gauze, bleach white cloth and the highest quality gypsona. According to the British Pharmacopoeia (BP) standards, this specifically formulated gold standard of POP bandage can be used for many different applications, helping medical professionals provide the best patient treatment within the plaster rooms, A&E, theatre departments and further afield.
